

Swami Swatantranand Memorial College, Dinanagar

Accredited with 'A' Grade by NAAC| Affiliated to GNDU, Amritsar

Teaching through Tutorials

Teaching Through Tutorials

There are different methods of delivering the knowledge to the students. Among these methods, there is also a method of delivering the knowledge with the help of the tutorials. The tutorial system is an important method of education where the main teaching method is regular, very small group sessions. These are the core teaching sessions of a degree, and are supplemented by lectures, practical and larger group classes. It is being considered as the most effective and authentic way to deliver the knowledge because it is always delivered to a small group of class.

Purpose of Tutorials

Tutorials are designed for more space & active involvement with the course content.

Objectives

- To provide a much better opportunity for the better understanding of lecturers.
- To enable the students to learn on demand when they feel fresh & motivated.
- To provide the opportunity to be free from the boundaries of time and space.
- To be able to stop for easy breaks and repeats as per requirement.
