**The
Institutional
Distinctiveness**

Upliftment of Rural Backward Area

Which makes our college unique and distinct.....

2020-2021

Upliftment of Rural Backward Area

The institution aims at working for the betterment of this rural backward area. SSM work performed for the benefit of society is known as social service or social work. It should be designed to encourage societal growth or social change. It contains the values of social justice, human rights, and each citizen's obligation to respect the varied social cultures of the nation. The institution holds the opinion that a values-based education is the foundation of a society like this. Only when education is seen as instilling compassion, humility, and service can such a goal be realized. To foster social services our college organizes the social activities through NSS and NCC. We motivate students to actively participate in social activities.

Objectives:

1. To make them wise citizens of the country.
2. To motivate the students towards social responsibilities.
3. To foster the sense of humanity, care and help among students.
4. Make them able to understand the common difficulties faced by some differently abled persons, and to guide them how to deal and help those ones.
6. To inculcate the human values among students.

Impacts of Social services on society:

Our students visiting old age homes, orphanages and schools for the physically challenged to share moments of their joy and celebration. Apart from providing financial support and material assistance, students spend the days with the inmates, perform cultural activities to entertain the inmates and also become part of the celebrations of the inmates, thereby providing a moral support to the inmates. The issues of inequality and unfairness in society are addressed by the discipline of social work. Its objective is to assist individuals in realizing

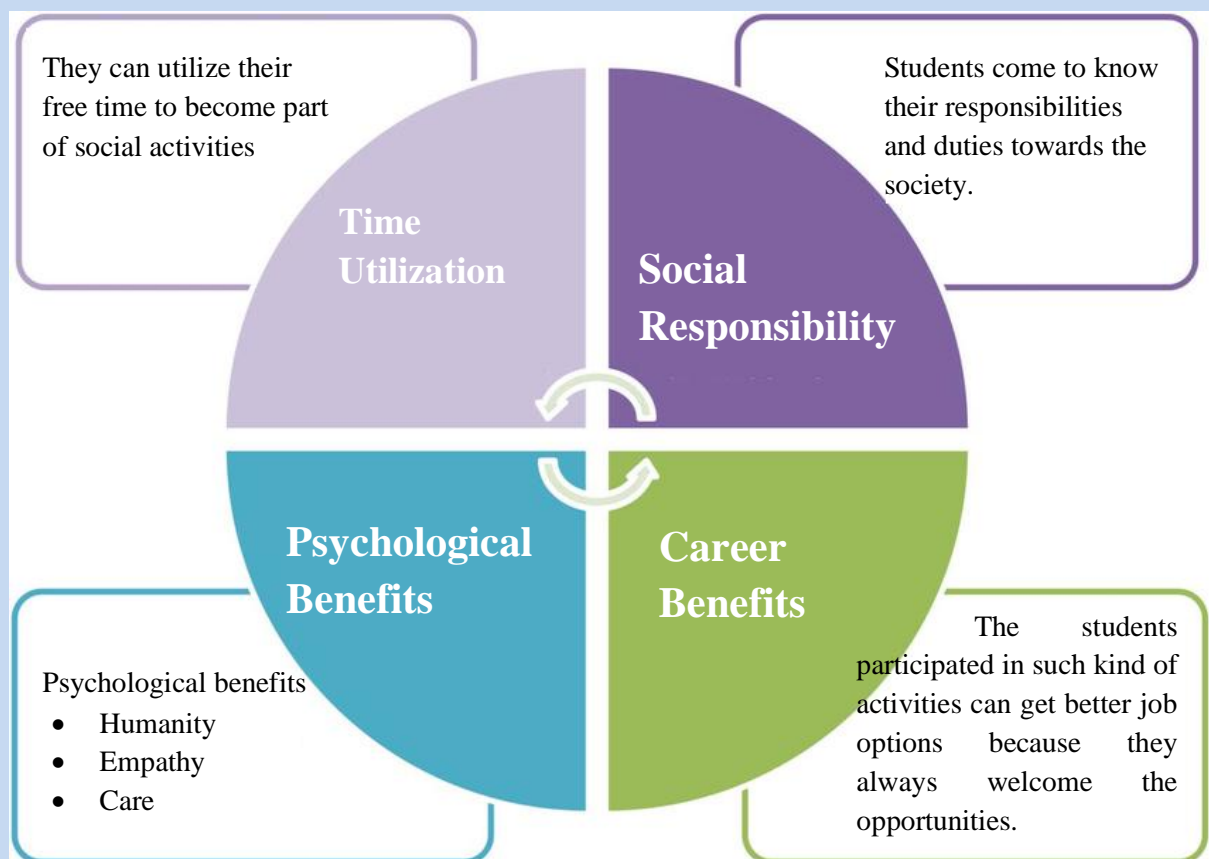

their fullest potential, enhancing their quality of life, and overcoming disorder. Professional social work seeks to resolve and improve problems.

Benefits:

Students who participate in community service and college volunteering gain information, practical skills, and have the opportunity to help others in need. Young people have the chance to become active citizens of their communities through community service and volunteering as college students, having a beneficial impact on society.

Some of the benefits by getting involved in such activities includes:

- Time utilization
- Social Responsibility
- Psychological benefits
- Career Responsibility

Benefits derived from being a part of Social and Rural upliftment Activities

Village Adoption:

Another social responsibility project of the institution is village adoption. It strives to improve the adopted hamlet by cleaning, gardening, environment friendly campaign etc
